

THE AQUARIUM OF WESTERN AUSTRALIA

Dear Dr Ruscoe,

18 April 2011

We employed The Fish Vet's services soon after he was set up in Western Australia. Previous to this, we have not had much to do with veterinarians, but have since found that they have an important role to play in our public aquarium. Dr Loh is passionate about fish and has worked with us to constantly improve our practices. He has played a central role in disease investigations, in particular, with our large grey nurse sharks, rayfish and sea dragons. I understand that he plays an important role in educating university students and frequently brings students on his visits to AQWA.

We look forward to continue our relationship with Dr Loh. Our establishment will definitely reap the rewards from the course he plans to undertake. Please do not hesitate to contact me if you have any questions.

Oren La Paz
